

TO THE MEMBERS OF CPMR,

We are delighted that you have chosen to visit Helsingborg and H22 City Expo in conjunction with your Political Bureau in June 2022.

H22 City Expo is a 35-day international event to showcase, test, and co-create smart solutions that improve life in more sustainable cities. As both a culmination and springboard in Helsingborg's long-term initiative to become an enabler of collaborative innovation, H22 City Expo will be the biggest arena in Europe for sustainable urban transformation in 2022.

During your visit to Helsingborg, it would be our pleasure to share with you our insights and experience from this innovation journey, and how we as a public sector actor have worked to promote and enable a culture of innovation. You will also have the opportunity to get a closer look at several of the innovations we are currently working with.

The programme for H22 City Expo can be found on our expo platform – h22cityexpo.com. There are currently more than 430 features and the

programme will continue to grow as we near the event. So be sure to keep an eye out! Our hope is that you will remain in Helsingborg after your Political Bureau and take in all that the city and expo have to offer.

The City of Helsingborg is holding a reception on June 15th to welcome you to Helsingborg and H22 City Expo.

On June 17th we invite you to an exclusive tour inside the Port of Helsingborg, one of Northern Europe's leading ports. Here, for example, you can see how the groundbreaking electric road system of Swedish company Elonroad is being used in an industrial setting, or explore how we work with electric terminal tractors.

We will also take you to Oceanhamnen, an entirely new district with fantastic views across the Öresund strait. Here circular thinking has been taken one step further. Find out what's so special about the local sewer system and why those living and working here are climate heroes the day they move in. At Drottninghög we will let you discover how a whole district can be transformed for the better with residents in the driving seat. You'll find gardening projects and inventive playgrounds, new housing concepts and green transport solutions.

With this letter we would like to extend you all a very warm welcome to Helsingborg and H22 City Expo on 15-17 June, and we look forward to giving you an inspirational few days in our city!

Best Regards,

Peter Danielsson
Mayor of Helsingborg
