## Recovery letter

### CB94 30MILES project

To KMRA, Meriturvallisuuden ja -liikenteen tutkimusyhdistys ry, as the Lead Partner of project CB94 30MILES,

The Managing Authority has been informed that the ownership of the Keihässalmi small port has been changed less than 10 years after the projects end (30.11.2022). The port was owned by the Pyhtää Municipality and has been sold to a private owner who plans development of residential area on the site. There have been ongoing discussions about access to the slip in the port.

Under the new circumstances the Keihässalmi small port, that was supported by the CB Programme and ERDF funds, does not operate as a guest harbor as it was planned according to the project application. Improved/renovated facilities in the port (sauna, service building) are not usable for boaters, maritime tourists or other public.

According to the Subsidy Contract § 8 Durability and ownership of results the following rules must be followed. In accordance with Article 71 of CPR Regulation the LP shall ensure that PP's (including LP) in infrastructure of productive investment projects shall repay the ERDF funding if within five (5) years of the final payment to the beneficiary or within the period of time set out in State aid rules, where applicable, it is subject to any of the following:

- a cessation or relocation of a productive activity outside the programme area;
- a change in ownership of an item of infrastructure which gives to a firm or a public body an undue advantage;
- a substantial change affecting its nature, objectives or implementation conditions which would result in undermining its original objectives.

For projects comprising investment in infrastructure or productive investment the period for repaying contributions is ten (10) years after the final payment to the LP if the productive activity is relocated outside the EU, except where the beneficiary is an SME. Projects without investments in infrastructure or productive investments shall repay the ERDF contribution if they are subject to an obligation for maintenance of investment under the applicable State aid rules and they undergo a cessation or relocation of a productive activity within the period laid down in those rules.

The LP is obliged to notify the MA of any such changes described beforehand for the MA to be able to determine which of the above-mentioned applies and the sums to be recovered.

- sustainability of the project results has not been ensured.

The circumstances have been validated through email correspondence with Pyhtää municipality as well as an on-the-spot check by the Joint Secretariat/Managing Authority on 27.5.2025.
